

Registration Form for WFC Youth Working Committee

Personal Info.

Name: Huijun Kang

Title: Professor

Affiliation: Dalian University of Technology

Research Interest

Copper alloys and thermoelectric materials

Main Achievements (<200 words)

Huijun Kang is currently a professor of Materials Science and Engineering at Dalian University of Technology. He received his Ph.D. degree in Materials Science and Engineering from Harbin Institute of Technology in 2013. After that, he spent two years as a postdoctoral research fellow at the Dalian University of Technology (2013–2015). His current research is mainly on the thermoelectric materials and high performance copper alloys. He was awarded “Young Scholar of National Talent Program”. He has hosted 4 projects of the National Natural Science Foundation of China and more than 20 other projects. He has published more than 100 SCI papers and more than 20 authorized national invention patents.
