

## Registration Form for WFC Scientific Committee

### Personal Info.

Name: Xie Jingpei

Title: Professor

Affiliation: Henan University of Science and Technology

### Research Interest

1. metal matrix composite
2. Composition design and structure control of cast steels
3. High-performance non-ferrous alloys

### Main Achievements (<200 words)

professor, doctoral tutor in the Department of Material Science and Engineering, former vice president of Henan University of Science and Technology and also the director of Provincial and Ministerial Co-construction of Collaborative Innovation Center for Non-ferrous Metal new Materials and Advanced Processing Technology. Dr. Jing-Pei Xie is a receiver of the state council special government allowances. He has completed 35 national and provincial (ministerial) scientific research projects. He has received many prizes, including 1 second and 1 third National Prize for Progress in Science and Technology, 5 first and 12 second Provincial and Ministerial Prizes for Progress in Science and Technology. He has published 8 books. Published more than 400 academic papers, including more than 150 SCI papers, and authorized 48 national invent patents.
